### Which options best describe your business? Select all that apply.

If your business owns multiple companies or brands, select the option that best describes the part of your business that provides services of a Tech Provider.

- ☑ Agency
- ☐ Freelancer
- ☐ Consultancy
- ☐ SaaS Platform
- ☐ Other

### How will your business use Platform Data (i.e., any info or data you obtain from us) to enable a product or service on behalf of your clients?

Include detail about the service being provided, how Platform Data is being used to provide that service and how clients will use that service. Keep your explanation short and avoid using technical jargon.

> We will use Platform Data to enhance our product/service offerings for clients by leveraging insights and information obtained to improve our solutions and better meet their needs.

### Does your business manage multiple business portfolios?

If yes, you will be asked to provide the business portfolio IDs for the businesses you manage.

- ◉ No
- ○ Yes

### Provide a link to your website.

Make sure to provide a valid URL to a complete website showing the service you described above and details of the business providing the service.
